

General Assembly

Distr.: General
13 January 2016

Seventieth session
Agenda item 73 (a)

Resolution adopted by the General Assembly on 10 December 2015

[without reference to a Main Committee (A/70/L.30 and Add.1)]

70/107. International cooperation on humanitarian assistance in the field of natural disasters, from relief to development

The General Assembly,

Reaffirming its resolution 46/182 of 19 December 1991, the annex to which contains the guiding principles for the strengthening of the coordination of emergency humanitarian assistance of the United Nations system, as well as all its resolutions on international cooperation on humanitarian assistance in the field of natural disasters, from relief to development, and recalling the resolutions of the humanitarian segments of the substantive sessions of the Economic and Social Council,

Reaffirming also the principles of humanity, neutrality, impartiality and independence for the provision of humanitarian assistance,

Recalling the Sendai Declaration¹ and the Sendai Framework for Disaster Risk Reduction 2015–2030,² adopted by the Third United Nations World Conference on Disaster Risk Reduction, held in Sendai, Japan, from 14 to 18 March 2015,

Recognizing that the Sendai Framework applies to the risk of small-scale and large-scale, frequent and infrequent, sudden and slow-onset disasters caused by natural or man-made hazards, as well as related environmental, technological and biological hazards and risks,

Noting with concern that slow-onset disasters such as droughts are on the rise in many places and can have significant impacts on affected populations and lead to increased vulnerability to other hazards,

Recognizing the Global Platform for Disaster Risk Reduction as the main forum at the global level for strategic advice coordination and partnership development for disaster risk reduction,

¹ Resolution 69/283, annex I.

² Ibid., annex II.

Noting the determination of the Conference of the Parties to the United Nations Framework Convention on Climate Change, as expressed in its decision 2/CP.18,³ to adopt a protocol, another legal instrument or an agreed outcome with legal force under the Convention applicable to all parties at its twenty-first session, held in Paris from 30 November to 11 December 2015, and for it to come into effect and be implemented from 2020,

Emphasizing the fundamentally civilian character of humanitarian assistance, reaffirming, in situations in which military capacity and assets are used as a last resort to support the implementation of humanitarian assistance in the field of natural disasters, the need for their use to be undertaken with the consent of the affected State and in conformity with international law, including international humanitarian law, as well as humanitarian principles, and emphasizing also in this regard the need for Member States to coordinate with all relevant actors early on in a disaster response so as to ensure the predictable, coherent and needs-based deployment of military assets and personnel supporting humanitarian assistance,

Emphasizing also that the affected State has the primary responsibility in the initiation, organization, coordination and implementation of humanitarian assistance within its territory and in the facilitation of the work of humanitarian organizations in mitigating the consequences of natural disasters,

Emphasizing further the primary responsibility of each State to undertake disaster risk reduction and management, including through the implementation of and follow-up to the Sendai Framework, as well as response and early recovery efforts, in order to minimize the impact of disasters, while recognizing the importance of international cooperation in support of the efforts of affected countries which may have limited capacities in this regard,

Expressing its deep concern at the increasing challenges to Member States and to the United Nations humanitarian response capacity to deal with the consequences of natural disasters, given the effects of global challenges, including the impact of climate change, the adverse impacts of the global financial and economic crisis and volatile food prices on food security and nutrition, and other key factors that exacerbate the vulnerability of populations and exposure to natural hazards and the impact of natural disasters,

Expressing its deep concern also that rural and urban poor communities in the developing world are the hardest hit by the effects of increased disaster risk,

Noting with concern that persons with disabilities, older persons, women and children are disproportionately affected in natural disasters,

Acknowledging the impacts of rapid urbanization in the context of natural disasters and that urban disaster preparedness and responses require appropriate disaster risk reduction strategies, including in urban planning, and early recovery strategies implemented from the initial stage of relief operations, as well as mitigation, rehabilitation and sustainable development strategies, and that action by humanitarian and development actors in urban areas needs to recognize the complexity of cities and build urban resilience, with improved urban expertise and capacities within organizations, while building on the capabilities, opportunities and potential new partnerships present in urban settings,

³ See FCCC/CP/2012/8/Add.1.

Welcoming the initiative to hold the United Nations Conference on Housing and Sustainable Urban Development (Habitat III), in Quito from 17 to 20 October 2016, and noting the importance of addressing, as appropriate, within the new urban agenda, policies to ensure a more effective response to natural disasters in urban areas,

Noting that local communities are the first responders in most disasters, underlining the critical role played by in-country capacities in disaster risk reduction, including preparedness, as well as response and recovery, and acknowledging the need to support efforts of Member States to develop and enhance national and local capacities which are fundamental to improving the overall delivery of humanitarian assistance,

Recognizing the adverse effects of climate change as contributors to environmental degradation and extreme weather events, which may, in certain instances, among other factors, contribute to disaster-induced human mobility,

Recognizing also the high numbers of persons affected by natural disasters, including in this respect internally displaced persons,

Reaffirming the importance of international cooperation in support of the efforts of the affected States in dealing with natural disasters in all their phases, in particular in preparedness, response and the early recovery phase, and of strengthening the response capacity of countries affected by disaster,

Recognizing the progress made by the United Nations Platform for Space-based Information for Disaster Management and Emergency Response (UN-SPIDER) in its mission,

Noting the progress of the Global Framework for Climate Services in developing and providing science-based climate information and prediction for climate risk management and for adaptation to climate variability and change, and looking forward to continued implementation,

Welcoming the important role played by Member States, including developing countries, that have granted necessary and continued generous assistance to countries and peoples stricken by natural disasters,

Recognizing the significant role played by national Red Cross and Red Crescent societies, as part of the International Red Cross and Red Crescent Movement, in disaster preparedness and risk reduction, disaster response, rehabilitation and development,

Recognizing also the significant achievements of the Central Emergency Response Fund in facilitating life-saving assistance to crisis-affected people by providing timely funding, enabling humanitarian organizations and their implementing partners to act quickly when tragedy strikes and steer resources to crises that do not receive the attention that they need and deserve, emphasizing the need to broaden and diversify the income base of the Fund, and welcoming in this context its tenth anniversary,

Emphasizing the need to address vulnerability and to integrate disaster risk reduction, including preparedness, into all phases of natural disaster management, post-natural disaster recovery and development planning through close collaboration of all relevant actors and sectors,

Reaffirming that strengthening resilience contributes to withstanding, adapting to and quickly recovering from disasters,

Recognizing the changing scope, scale and complexity of humanitarian crises, including natural disasters, and their adverse impact on efforts to achieve economic growth, sustainable development and internationally agreed development goals, including the Sustainable Development Goals,⁴ and noting the positive contribution that these efforts can make in strengthening the resilience of populations to such disasters,

Recognizing also the clear relationship between emergency response, rehabilitation and development, and reaffirming that, in order to ensure a smooth transition from relief to rehabilitation and development, emergency assistance must be provided in ways that will be supportive of short-term and medium-term recovery, leading to long-term development, and that certain emergency measures should be seen as a step towards sustainable development,

Emphasizing, in this context, the important role of development organizations and other relevant stakeholders in supporting national efforts to mitigate the consequences of natural disasters,

1. *Takes note* of the report of the Secretary-General;⁵
2. *Expresses its deep concern* at the increasing impact of natural disasters, resulting in massive losses of life and property worldwide, in particular in vulnerable societies lacking adequate capacity to mitigate effectively the long-term negative social, economic and environmental consequences of natural disasters;
3. *Reaffirms* the importance of implementing the Sendai Framework for Disaster Risk Reduction 2015–2030,² to ensure the substantial reduction of disaster risk and losses in lives, livelihoods and health and in the economic, physical, social, cultural and environmental assets of persons, businesses, communities and countries, and underlines the importance of tackling the underlying disaster risk drivers and of integrating a disaster risk reduction perspective into humanitarian assistance to prevent new and reduce existing disaster risk;
4. *Emphasizes* the need to promote and strengthen disaster preparedness activities at all levels, in particular in hazard-prone areas, and encourages Member States, the United Nations system and other relevant humanitarian and development actors to increase funding and cooperation for disaster risk reduction activities, including disaster preparedness;
5. *Encourages* Member States to provide dedicated financial contributions to preparedness, response and recovery efforts in a harmonized, flexible and complementary approach that fully utilizes and helps to coordinate humanitarian and development funding options and potential;
6. *Calls upon* all States to adopt, where required, and to continue to implement effectively, necessary legislative and other appropriate measures to mitigate the effects of natural disasters and integrate disaster risk reduction strategies into development planning, as well as to incorporate a gender perspective into policies, planning and funding, and in this regard requests the international

⁴ See resolution 70/1.

⁵ A/70/324.

community to continue to assist developing countries as well as countries with economies in transition, as appropriate;

7. *Acknowledges* that climate change, among other factors, contributes to environmental degradation and to the increase in the intensity and frequency of climate and extreme weather events, both of which amplify disaster risk, and in this regard encourages Member States, as well as relevant international, regional and subregional organizations, in accordance with their specific mandates, to support adaptation to the adverse effects of climate change and to strengthen disaster risk reduction and early warning systems in order to minimize the humanitarian consequences of natural disasters, including through the provision of technology and support for capacity-building in developing countries;

8. *Encourages* Member States to address the humanitarian and development needs arising from natural disaster-induced displacement, including through national policies and resilience-building, and in this regard encourages Member States, supported by the United Nations, to develop national laws and policies on internal displacement, as appropriate, which address such displacement, detail responsibilities and measures to minimize the impact of disasters, protect and assist internally displaced persons following disasters, and identify and promote durable solutions, and in this respect encourages Member States to adopt standards, as appropriate, in line with the Guiding Principles on Internal Displacement,⁶ the Framework on Durable Solutions for Internally Displaced Persons of the Inter-Agency Standing Committee⁷ and the basic principles and guidelines on development-based evictions and displacement;⁸

9. *Calls upon* Member States, the United Nations and humanitarian and development organizations to integrate the building of resilience and human mobility into relevant strategies, plans and legal frameworks, in particular regarding disaster risk management and climate change adaptation, as integral elements of sustainable development at the national and regional levels so as to help to prevent and mitigate displacement in the context of disasters and the effects of climate change, including in urban settings where displaced persons have particular needs, requirements and vulnerabilities;

10. *Encourages* Member States to strengthen operational and legal frameworks for international disaster relief and to adopt and implement national laws and regulations, as appropriate, to reduce the impact of the underlying drivers of disaster risk and vulnerability, and to adopt comprehensive rules and procedures for the facilitation and regulation of international disaster assistance, drawing, as appropriate, on the Guidelines for the Domestic Facilitation and Regulation of International Disaster Relief and Initial Recovery Assistance, and calls upon the International Red Cross and Red Crescent Movement, relevant United Nations organizations and other partners for technical support in achieving these aims;

11. *Welcomes* the effective cooperation among the affected States, relevant bodies of the United Nations system, donor countries, regional and international financial institutions and other relevant stakeholders, such as the International Red Cross and Red Crescent Movement, municipalities, civil society and the private sector, in the coordination and delivery of emergency relief, and stresses the need to

⁶ E/CN.4/1998/53/Add.2, annex.

⁷ A/HRC/13/21/Add.4.

⁸ A/HRC/4/18, annex I.

continue such cooperation and delivery throughout relief operations and medium- and long-term rehabilitation and reconstruction efforts, in a manner that reduces vulnerability to future natural hazards;

12. *Reiterates* the commitment to support, as a matter of priority, the efforts of countries, in particular developing countries, to strengthen their capacities at all levels in order to reduce risks, prepare for and respond rapidly to natural disasters and mitigate their impact;

13. *Urges* Member States to develop, update and strengthen early warning systems, disaster preparedness and risk reduction measures at all levels, in accordance with the Sendai Framework, taking into account their own circumstances and capacities and in coordination with relevant actors, as appropriate, and encourages the international community and relevant United Nations entities to continue to support national efforts in this regard;

14. *Also urges* Member States to improve their response to early warning information in order to ensure that early warning leads to early action, and encourages all stakeholders to support the efforts of Member States in this regard;

15. *Encourages* Member States to consider elaborating and presenting to the International Strategy for Disaster Reduction secretariat their national platforms for disaster reduction in accordance with the Sendai Framework, and also encourages States to cooperate with each other to reach this objective;

16. *Recognizes* the importance of applying a multi-hazard approach to preparedness, and encourages Member States, taking into account their specific circumstances, and the United Nations system to continue to apply the approach to their preparedness activities, including by giving due regard to, inter alia, secondary environmental hazards stemming from industrial and technological accidents;

17. *Stresses* that, to increase further the effectiveness of humanitarian assistance, particular international cooperation efforts should be undertaken to enhance and broaden further the utilization of national and local capacities and, where appropriate, of regional and subregional capacities for disaster preparedness and response, which may be made available in closer proximity to the site of a disaster, and more efficiently and at lower cost;

18. *Encourages* innovative practices that draw on the knowledge of people affected by natural disasters to develop locally sustainable solutions and to produce lifesaving items locally, with minimal logistical and infrastructure implications;

19. *Stresses*, in this context, the importance of strengthening international cooperation, particularly through the effective use of multilateral mechanisms, in the timely provision of humanitarian assistance through all phases of a disaster, from relief and recovery to development, including the provision of adequate resources;

20. *Encourages* all relevant stakeholders, including Member States, to take appropriate measures to reduce and discourage the sending of unsolicited, unneeded or inappropriate relief goods in response to disasters;

21. *Encourages* all Member States to facilitate, to the extent possible, the transit of emergency humanitarian assistance and development assistance and the entry of humanitarian personnel and supplies, provided in the context of international efforts, including in the phase from relief to development, in full accordance with the provisions of resolution 46/182 and the annex thereto, and in full respect of the humanitarian principles of humanity, neutrality, impartiality and

independence, and their obligations under international law, including international humanitarian law;

22. *Encourages* Member States to put in place, as appropriate, customs measures to improve effectiveness in responding to natural disasters;

23. *Reaffirms* the leading role of the Office for the Coordination of Humanitarian Affairs of the Secretariat as the focal point within the overall United Nations system for the advocacy for and coordination of humanitarian assistance among United Nations humanitarian organizations and other humanitarian partners;

24. *Welcomes* the important contribution of the United Nations Disaster Assessment and Coordination system to the effectiveness of humanitarian assistance in supporting Member States, upon their request, and the United Nations system in preparedness and humanitarian response, and encourages the continued incorporation into this mechanism of experts from developing countries that are prone to natural disasters;

25. *Also welcomes* the important contribution of the International Search and Rescue Advisory Group to the effectiveness of international urban search and rescue assistance, and encourages Member States to continue to support the Advisory Group, in line with General Assembly resolution 57/150 of 16 December 2002;

26. *Urges* Member States, the United Nations system and other humanitarian actors to consider the specific and differentiated consequences of natural disasters in both rural and urban areas when designing and implementing disaster risk reduction, prevention and mitigation, preparedness, humanitarian assistance and early recovery strategies, giving special emphasis to addressing the needs of those living in rural and urban poor areas prone to natural disasters;

27. *Welcomes* the continued efforts of the Office for the Coordination of Humanitarian Affairs to build partnerships with regional organizations, traditional and non-traditional donors and the private sector, and encourages Member States and the United Nations system to continue to strengthen partnerships at the global, regional, national and local levels in support of national efforts in situations of natural disasters, in order to cooperate effectively in providing humanitarian assistance to those in need and ensure that their collaborative efforts adhere to the principles of humanity, neutrality, impartiality and independence;

28. *Recognizes* that information and telecommunications technology can play an important role in disaster response, encourages Member States to develop emergency response telecommunications capacities, encourages the international community to assist the efforts of developing countries in this area, where needed, including in the recovery phase, and in this regard encourages Member States that have not acceded to or ratified the Tampere Convention on the Provision of Telecommunication Resources for Disaster Mitigation and Relief Operations⁹ to consider doing so;

29. *Encourages* the further use of space-based and ground-based remote-sensing technologies, including as provided by the United Nations Platform for Space-based Information for Disaster Management and Emergency Response (UN-SPIDER), as well as the sharing of geographical data, for the prevention, mitigation and management of natural disasters, where appropriate, and invites

⁹ United Nations, *Treaty Series*, vol. 2296, No. 40906.

Member States to continue to provide their support to the consolidation of the United Nations capability in the area of satellite-derived geographical information for early warning, preparedness, response and early recovery;

30. *Encourages* Member States to provide all support necessary, on a voluntary basis, to UN-SPIDER, including financial support, to enable it to carry out its workplan for 2015–2016, and reiterates the importance of enhancing international coordination and cooperation at the global level in disaster management and emergency response through greater access to and use of space-based services for all countries and by facilitating capacity-building and institutional strengthening for disaster management, in particular in developing countries;

31. *Recognizes* the opportunities for new technologies, when utilized in a coordinated fashion and based on humanitarian principles, potentially to improve the effectiveness and accountability of humanitarian response, and encourages Member States, the United Nations and its humanitarian partners to consider engaging, inter alia, with the volunteer and technical communities in order to make use of the variety of data and information available during emergencies and disaster risk efforts;

32. *Encourages* Member States, relevant United Nations organizations and international financial institutions to enhance the global capacity for sustainable post-disaster recovery in areas such as coordination with traditional and non-traditional partners, identification and dissemination of lessons learned, development of common tools and mechanisms for recovery needs assessment, strategy development and programming, and incorporation of risk reduction into all recovery processes, and welcomes the ongoing efforts to this end;

33. *Encourages* Member States and the United Nations system to support national initiatives that address the differentiated impacts of natural disasters on the affected population, including through the collection and analysis of data disaggregated, inter alia, by sex, age and disability, using, inter alia, the existing information provided by States, and through the development of tools, methods and procedures that will result in more timely and useful initial needs assessments that lead to targeted and more effective assistance, and taking into account the environmental impact;

34. *Calls upon* United Nations humanitarian organizations, in consultation with Member States, as appropriate, to strengthen the evidence base for effective humanitarian assistance by further developing common mechanisms to improve the quality, transparency and reliability of, and make further progress towards, common humanitarian needs assessments, to assess their performance in assistance and to ensure the most effective use of humanitarian resources by these organizations;

35. *Encourages* Member States to take steps to develop or to improve data collection and analysis and to facilitate the exchange of relevant information with humanitarian and development organizations of the United Nations, including through shared platforms and a common approach, in order to inform policy and measures designed to address disaster risks and their consequences, to support preparedness efforts and to improve the effectiveness of a needs-based humanitarian response, and encourages the United Nations system, as appropriate, and other relevant actors to continue to assist developing countries in their efforts to build local and national capacities for data collection and analysis;

36. *Encourages* Member States, regional organizations, the United Nations and humanitarian and development organizations to continue to improve the identification, mapping and analysis of risks and vulnerabilities, including the local impact of future disaster risk drivers, and the development and implementation of appropriate strategies and programmes to address them, and in this regard encourages all the relevant stakeholders to support Governments in capacity development, including at the regional and local levels, through the sharing of expertise and tools and the provision of necessary resources, as appropriate, to ensure that effective disaster management plans and capacities are in place in accordance with national priorities for disaster risk management;

37. *Stresses* the importance of the full and equal participation of women in decision-making and of gender mainstreaming in developing and implementing disaster risk reduction, preparedness, response and recovery strategies, and in this regard requests the Secretary-General to continue to ensure that gender mainstreaming is better taken into account in all aspects of humanitarian responses and activities, including the analysis of allocations and programme implementation, and through greater use of the gender marker;

38. *Encourages* Governments, local authorities, the United Nations system and regional organizations, and invites donors and other assisting countries, to address the vulnerabilities and capacities of women and girls through gender-responsive programming, including with regard to sexual and reproductive health needs and means to address sexual and gender-based violence and various forms of exploitation during emergencies and in post-disaster environments, and the allocation of resources in their disaster risk reduction, response and recovery efforts in coordination with the Governments of affected countries;

39. *Emphasizes* the importance of mainstreaming the perspective of persons with disabilities in disaster risk reduction, and recognizes the need for their inclusive participation in and contribution to disaster preparedness, emergency response, recovery and transition from relief to development, as well as the implementation of policies and programmes that are inclusive of and accessible to persons with disabilities;

40. *Encourages* efforts to provide safe and enabling learning environments and quality education for all, especially for girls and boys, in humanitarian emergencies caused by natural disasters, including in order to contribute to a smooth transition from relief to development;

41. *Encourages* Member States and relevant regional and international organizations to identify and improve the dissemination of best practices for improving disaster preparedness, response and early recovery and to scale up successful local initiatives, as appropriate;

42. *Requests* the United Nations humanitarian and development organizations to improve their coordination of disaster recovery efforts, from relief to development, inter alia, by strengthening institutional, coordination and strategic planning efforts in disaster preparedness, resilience-building and recovery, in support of national authorities, and by ensuring that development actors participate in strategic planning at an early stage;

43. *Encourages* the United Nations and humanitarian and development organizations to support national, subnational and local governments and communities in their responsibility to develop long-term strategies and multi-year

operational plans for preparedness that are embedded within disaster risk reduction and resilience strategies in line with the Sendai Framework;

44. *Calls upon* the United Nations system and other humanitarian actors to improve the dissemination of tools and services to support enhanced disaster risk reduction, in particular preparedness, and early recovery;

45. *Calls upon* relevant United Nations humanitarian and development organizations, in consultation with Member States, to strengthen tools and mechanisms to ensure that early recovery needs and support are integrated into the planning and implementation of disaster preparedness, humanitarian response and development cooperation activities, as appropriate;

46. *Encourages* the United Nations system and humanitarian organizations to continue their efforts to mainstream early recovery into humanitarian programming, acknowledges that early recovery is an important step towards resilience-building and should receive further funding, and encourages the provision of timely, flexible and predictable funding for early recovery, including through established and complementary humanitarian and development instruments;

47. *Urges* Member States, the United Nations and humanitarian and development organizations to prioritize risk management and shift towards an anticipatory approach to humanitarian crises in order to prevent and reduce human suffering and economic losses;

48. *Encourages* Member States and the United Nations to enhance the use of common risk analysis, including the use of the Index for Risk Management, to establish the evidence base for short-, medium- and long-term planning and joint strategies for disaster and climate risk management, capacity development and resilience-building, allowing for greater prioritization of resources where the risk is greatest;

49. *Encourages* the United Nations and humanitarian and development organizations to work towards a common understanding of underlying risks, clarify roles and responsibilities according to their respective mandates and establish joint objectives and programmes to strengthen coordination and coherence among short-, medium- and long-term activities to progressively reduce vulnerability and manage the risk of disasters and development setbacks over multi-year planning cycles, including through integrating risk management into national sustainable development plans and ensuring the connectivity of humanitarian plans with longer-term sustainable development priorities;

50. *Stresses* the need to strengthen resilience at all levels, and in this regard encourages Member States, the United Nations system and other relevant actors to support efforts, as appropriate, to integrate resilience into humanitarian and development programming, and encourages humanitarian and development actors to pursue, where appropriate, common resilience and risk management objectives, achievable through joint analysis, planning, programming and funding;

51. *Calls upon* Member States, the United Nations and humanitarian organizations to provide emergency assistance in ways that are supportive of recovery and long-term development, as appropriate, including by prioritizing humanitarian tools that strengthen resilience and support livelihoods, such as, but not limited to, cash transfers, vouchers, local procurement of food and services and social safety nets;

52. *Encourages* the United Nations system and other relevant humanitarian and development actors to support humanitarian coordinators and resident coordinators in order to strengthen their capacity, inter alia, to support the host Government in implementing preparedness measures and to coordinate preparedness activities of country teams in support of national efforts, and encourages the United Nations system and other relevant humanitarian actors to further strengthen the ability to quickly and flexibly deploy humanitarian professionals to support Governments and country teams in the immediate aftermath of a disaster;

53. *Encourages* Member States, the United Nations and humanitarian and development organizations to identify ways to improve the current financing architecture in order to better provide coherent, predictable and flexible longer-term funding for risk management in multi-year strategies, in particular preparedness, on the basis of a global assessment of risk, allowing for better prioritization of resources where the risk is greatest;

54. *Emphasizes* the need to mobilize adequate, flexible and sustainable resources for recovery, preparedness and disaster risk reduction activities in order to ensure predictable and timely access to resources for humanitarian assistance in emergencies resulting from disasters associated with natural hazards;

55. *Welcomes* the important achievements of the Central Emergency Response Fund in ensuring a more timely and predictable response to humanitarian emergencies, stresses the importance of continuing to improve the functioning of the Fund, and in this regard encourages the United Nations funds and programmes and the specialized agencies to review and evaluate, where necessary, their partnership policies and practices in order to ensure the timely disbursement of funds from the Fund to implementing partners in order to ensure that resources are used in the most efficient, effective, accountable and transparent manner possible;

56. *Calls upon* all Member States, and invites the private sector and all concerned individuals and institutions, to consider increasing their voluntary contributions to the Central Emergency Response Fund, and to continue to reinforce and strengthen the Fund as the global emergency response fund, and emphasizes that contributions should be additional to current commitments to humanitarian programming and should not be to the detriment of resources made available for international cooperation for development;

57. *Invites* Member States, the private sector and all other relevant stakeholders to harness their differentiated skills, capacities and resources, and also to consider voluntary contributions to humanitarian funding mechanisms;

58. *Strongly encourages* giving appropriate consideration to disaster risk reduction and the building of resilience to disasters as integral elements of sustainable development and in the implementation of the 2030 Agenda for Sustainable Development⁴ and the Addis Ababa Action Agenda of the Third International Conference on Financing for Development¹⁰ and promoting a complementary and coherent approach between these agendas and the Sendai Framework;

59. *Strongly encourages* all relevant actors to work to ensure a comprehensive, coherent, systematic and people-centred approach to managing risks, including through the 2030 Agenda for Sustainable Development, the Sendai

¹⁰ Resolution 69/313, annex.

Framework and the outcomes of the twenty-first session of the Conference of Parties to the United Nations Framework Convention on Climate Change, the United Nations Conference on Housing and Sustainable Urban Development (Habitat III) and the World Humanitarian Summit;

60. *Welcomes* the initiative by the Secretary-General to hold the first World Humanitarian Summit in Istanbul, Turkey, on 23 and 24 May 2016, takes note of the ongoing preparatory process and consultations, including the regional and global consultations, and requests the Office for the Coordination of Humanitarian Affairs to ensure an inclusive, consultative and transparent preparatory process that includes the participation and contributions of Member States and stakeholders to the process and the outcome of the Summit, and requests the Secretary-General to further engage Member States, as well as other stakeholders, and to present a road map on the preparations for the Summit that includes the expected role of Member States and stakeholders, and the expected outcome, scope and follow-up process;

61. *Requests* the Secretary-General to continue to improve the international response to natural disasters and to report thereon to the General Assembly at its seventy-first session and to include in his report recommendations on how to ensure that humanitarian assistance is provided in ways supportive of the transition from relief to development.

*72nd plenary meeting
10 December 2015*
